

COTA Assists Families Struggling with **Biliary Atresia (BA) and Liver Transplant**

COTA can help remove the financial barriers to a transplant.
COTA provides support and fundraising assistance to families facing a liver transplant.

COTA Kid Ruby Mwamba

Received Liver Transplant due to BA

Before Ruby was transplanted, COTA worked with our volunteers and offered advice and assistance about how to successfully fundraise for transplant-related expenses. COTA allowed us to focus on Ruby as we waited for a liver. Throughout a very stressful time, COTA made things seamless. Now, post-transplant, we do not have to worry about the financial aspect of keeping our daughter healthy including costly prescription medications, regular medical testing and frequent lab work. We are not sure where we would be today without COTA's guidance and support."

COTA Parents, Melissa and Gabriel Mwamba
